

# Powering Up with Clean Energy

Learn how Avista's transition to cleaner energy impacts you.

## Clean Energy in Washington

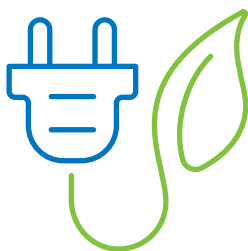

In 2019, Washington's governor signed the **Clean Energy Transformation Act (CETA)** into law. This requires Washington utilities, including Avista, to meet new clean energy goals.

## CETA Milestones

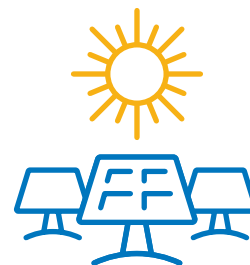

New requirements align with Avista's goals to offer a mix of renewable energy solutions to our Washington electric customers, such as wind, solar, hydropower, and biomass. Avista's current energy mix includes ~60% renewables and continues to climb.

2025 Coal-Free

2030 Greenhouse Gas-Neutral

2045 100% Clean

## Getting There

Avista's **Clean Energy Implementation Plan (CEIP)** is a four-year roadmap that shows how we will meet the energy and equity requirements set by Washington's clean energy legislation.

This plan includes **Customer Benefit Indicators (CBIs)** that measure how Avista is working to ensure all customers benefit from a clean energy future.

- Helping customers save with energy efficiency programs.
- Reducing greenhouse gas emissions.
- Ensuring a reliable clean electric system.

A full list of CBIs can be found in Avista's CEIP.

**AVISTA**

## Equity in Energy

Avista is committed to ensuring all Washington electric customers benefit from the transition to cleaner energy.

### Named Communities Investment Fund (NCIF)

Avista provides funding to support projects, programs, and initiatives for community organizations that directly benefit Washington electric customers living in Named Communities.\*

**Organizations can apply by visiting [myavista.com/NCIF](https://myavista.com/NCIF).**

\*Named Communities are specific places impacted by fossil fuel pollution and climate change. These areas are also home to people facing social and economic challenges.

### Equity Advisory Group (EAG)

A group of community partners in Washington that provide Avista with input, feedback, and guidance around equity and community engagement.

**Join the EAG by visiting [myavista.com/CETA](https://myavista.com/CETA).**

# Get Involved

**Is affordable, clean, and reliable energy important to you? We want to hear from you. Be part of Avista's public meetings, join an advisory group, or call/email us.**

### Be Part of the Discussion

Avista holds online meetings for Washington customers to ask questions, share feedback, and learn how the clean energy transition impacts their lives and communities. See meeting dates or join a meeting by visiting [myavista.com/CETA](https://myavista.com/CETA).

- Held virtually throughout the year, topics vary.
- Dates and presentation materials are posted online before and after each meeting.
- Closed captions available in multiple languages using the meeting platform's technology.

### Join an Advisory Group

From equity to energy resource selection, Avista has various advisory groups you can join to shape public participation and provide program oversight.

- See which groups you can be part of and learn about their roles at [myavista.com/CETA](https://myavista.com/CETA).

### Receive Regular Updates

Want to get emails about Avista's progress meeting CETA requirements? Sign-up for our quarterly newsletter at [myavista.com/CETA](https://myavista.com/CETA).

**Learn more and get involved in the future of clean energy in Washington by visiting [myavista.com/CETA](https://myavista.com/CETA).**
